REPRESENTATION TO THE HONORABLE COURT OF DIRECTORS,

MADE AS REQUESTED BY THE GENERAL MEETING OF SUBSCRIBERS OF 1ST JANUARY, 1845.

To

J. A. DORIN, ESQ.

Secretary to the Government of India, Financial Department.

SIR,

We have the honor to forward a copy of the Proceedings of the Annual General Meeting of Subscribers to the Civil Service Annuity Fund held on the 1st Instant, at which the despatch of the Hon'ble the Court of Directors, dated the 31st July 1844, received with your letter of the 27th September last was taken into consideration.

* With copies of the Despatch and of your letter of 27th Sept. per our secretary's letter to your address of 30th Nov. 1844.

The rule proposed by the Hon'ble Court had been communicated* by us on the 12th November last to the Subscribers at large for their reconsideration as required by the Court; the result of the votes received thereon at the general meeting showed a large majority against the adoption of the proposed rule.

2d. We are deputed by that general meeting to submit an explanation of the grounds upon which the rule in question has not been adopted—and we respectfully request that the Right Hon'ble the Governor General in Council will authorize the transmission to the Hon'ble Court of Directors, with the proceedings of the meeting, of this representation on the subject.

3d. We may premise that it is both the desire and the interest of the subscribers to the Fund to meet the wishes of the Hon'ble Court, readily and at all times, when they can do so without a material sacrifice of what either as subscribers or as retired annuitants, is defined and guaranteed to them by the original rules and constitution of the Fund.

4th. But the proposed new rule would obviously go much beyond the intent of the original rule 13.

5th. The subscribers feel that the rule if adopted would carry with it a sense of insecurity as to the position of an actual annuitant, which could not exist under the original rule: and that a servant is warranted in considering the annuity once obtained as his private indefeasible property. The annuity has heretofore always been held as property of a certain ascertainable market value which the subscriber has purchased partly with money, partly with service, and upon the security of which, private arrangements and transactions are determinable. The proposed new rule would tend materially to impair and depreciate such security.

6th. We need not assure the Hon'ble Court that as subscribers to the Annuity Fund we and the body whom we represent in this appeal to the consideration of the Court have no sympathy with any member of the service who shall not be "conscious of the rectitude of his own conduct"; and we hope we may add without presumption, that the general conduct of the Civil Servants of the Hon'ble East India Company has given no grounds for the general suspicion and want of trust upon which the proposed rule appears to be based.—We are aware that we are liable after our period of service, as well as in the course of it, at any time, to statuteable punishments on legal conviction of any offence committed during such service. We are likewise liable, as in all services, to be dismissed for grave misconduct or incapacity.—The subscribers are proud of their service and grateful for the benefits which they possess in it, and they bear without anxiety the risks incident to the tenure of all service; they shrink however from being required to take upon themselves and their families, the continuance of those risks after the term of their service is expired. It seems to them just and reasonable that when their service

is completed and its privileges have ceased, the risks should cease also, and that in form and substance they should have a sure, and except by their own act or an act of the law, an unalienable property in their annuity.

7th We respectfully submit that the subscribers have these* strong reasons for preferring to remain in the position given to them by the original and existing rules; and we feel fully assured that the Hon'ble Court will not press them to abandon that which they so earnestly desire to preserve.

We have, &c.

Signed by the Managers.

C. S. A. F. Office,
The 31st January 1845.

* Some letters from subscribers point out other circumstances, as the difficulty of disproving charges made probably after a long absence from India, and from documents and records not being available through loss, mislaying, or destruction,—the possible falsification of records to sustain a malicious charge,—and other objections, some of which have been noticed before.

PRINCIPLES OF THE FUND.

To

Twelve Subscribers at Allahabad.

GENTLEMEN,

I am directed by the Managers of the Civil Service Annuity Fund to acknowledge the receipt of the Paper signed by 12 subscribers at Allahabad, dated 8th August instant, and in reply to forward for your perusal and consideration the papers noted in the margin.* From these you will observe that the Managers have recently had the subject matter of your communication under very full consideration; and they would particularly direct your attention to their letter to Mr. T. C. Robertson, dated the 22nd February 1843, forming one of the enclosures.

*Lr. to Mr.T.C. Robertson 22nd Feb. 1843.
Do.—E. Lee Warner 1st March.
Do.—Secretary to Government, 15th Feb.
Do.— do do 10th March.
And 3 printed papers (1) notification of 12th November 1841, containing present rules 35 and 36 adopted January 1842. (2) Report on state of the Fund 15th June 1841 (3) Paper with Rule 40.

2nd. In considering what steps could be taken towards meeting your views and at the same time to subserve the general interests of the subscribers at large, the managers have found it necessary to enter into the constitutional principles of the Fund and they submit to you the result as far as it directly touches the question propounded by you.

3rd. The chief object of the Fund is to give retiring annuities to

Senior Servants after a definite period of service and to accelerate promotion generally amongst Juniors. The annuities to Seniors were originally promised as simple life annuities payable yearly on living out the year ; and the ratio of promotion held out to Juniors was according to the No. of Annuities promised, viz. nine per annum. To compass this end the annuities being paid at £1000 per annum the Court of Directors required a contribution by the subscribers of 4 per cent. upon their public allowances ; the Court undertaking to contribute a like sum.

4th. It would appear that every member had a share in the Court's contribution equivalent to his own subscription. But here there was a limit* "necessarily fixed in relation to the extent of the advantages which the Fund was destined to afford" generally. That extent was 9 annuities of £1000 each per annum ; according to *which* the rate of 4 per cent. contribution from the whole body of subscribers was fixed, and the Court's donation equalized. To the extent therefore of the proportion which the Retiring member's subscription bore to the annuity (or its value) of a £1,000 *and not beyond*†, did he possess a share in the Court's contribution. If therefore his subscriptions were more than the half value, he got credit from the donation only to the extent of such half value ; and he obtained the annuity "without any payment"‡ of fine ; the excess of his subscription being really absorbed in the general Funds which gave the general annuities : And on the other hand if his subscriptions were less than the half value, to *that* extent he was credited from the Court's donation and he obtained a proportionately reduced§ annuity ; but if he made up by fine his subscriptions to the half value he then got credit to the full extent allowed from the donation ¶ and obtained a full annuity of £1,000 as originally guaranteed.

5th. Hence it appears conclusive that under the original constitution of the Fund all that was guaranteed and all that its *calculated resources* were warranted to give, was 9 simple life annuities yearly. And all that any subscriber could look forward to was an annuity of £1000 per annum on his surviving each year. If from having staid longer in the service than was calculated upon, his subscription (*with interest* ||) should exceed the half value, he could not on that account claim more than the constitution allowed ; because all his apparent excess but formed part of the elements out of which the general funds afforded the regular 9 annuities, and the subscrip-

† No more than that he could claim a greater annuity than the prescribed annuity, because of having subscribed more than the half value.

‡ Rules 10 and 11.

§ Rule 12.

¶ This was not mathematically correct, because the Court did not give an equivalent for *fines* in their yearly donation but only for *subscriptions* derived by deductions from salaries. But such variances were reconciled by the provisions of the 62 para, as see their 75 para. of letter 8th Dec. 1824. And the calculations of the risks of life and of lesser values in the first years, permitted of the general funds to apportion the donation to the full extent, so as to give the 9 annuities yearly, see 57 and 66 paras.

|| In every case perhaps of a

subscriber's balance exceeding the half value the excess is entirely interest, and that interest he obtains from the interest given by the Court upon the *general balances* of the Fund.

* In the table annexed to the 70th para. the court reckoned that by the end of the 24th year a subscriber's balance would reach Rs. 38,876 or 11,674 short of the ½ value. Taking that average I calculate that by the 27th year the balance would exceed the ½ value even at the age of 45.

tions which he paid after he had arrived at the point of half value stood in relation to the general funds in the stead of the subscription of another subscriber whom he would have given place to had he retired in ordinary course. That such excess of subscription was anticipated and yet no additional benefit held out to such subscriber (which would act as a premium to putting off retirement) will be clearly seen on considering the 50th, 70th and particularly the 74th paragraph of the Court's letter of 8th December 1824. *

So far then every circumstance would seem to negative the principle of the question put by you, viz. that a member *who has subscribed a clear surplus above the half value* more than sufficient to cover the charge for quarterly payments and to date of decease, should not be called upon for any further contribution to obtain those advantages. The simple fact that before 1834 subscribers exactly similarly situated as to their subscribed balances had not even the chance of those advantages (which began in 1834 only,) appears to be a sufficient *a priori* argument against the principle, at least as a question of right.

6th. Under what other circumstances then can it be entertained?—Certainly not under the Rule itself that introduced the new advantages. Rule 40 does not even allude to the state of a subscriber's account as other rules referring to the simple annuity do; but directly requires a distinct "payment" *of the full value* for the privileges which it affords. And here if you will refer to the 2nd and 3rd paras. of the letter to Mr. Robertson you will find it clearly shown that the privileges of Rule 40 are *ab extra* to the original constitution; that as such, a distinct extraordinary payment is required for them; that the Court in answer to the request of the subscribers to allow these additional values to be provided out of the surplus of the *general* funds observed, "the payment by the *subscriber* must be the *whole value* of the increased advantage—unless this be done the calculations upon which the Fund is based will be deranged": and finally you will notice it is asserted that the payment in question has without exception been always so made by retiring members without reference to the amount of their subscribed balances.

7th. It can only be entertained as a question of boon or refund; and as such only with reference to any surplus that may exist in the *general* funds of the Institution †. But in none of their requests to the Court have the subscribers made this a part of their application. In their Memorial of April 1838 (to which the Court's last dispatch regarding annuities was an answer) praying for the application of the general

† It has already been shown that it is quite within the nature of the Fund that though an

individual member's account may show a surplus the general funds may not have any.

Para 19th. That you will permit the Fund to grant annuities not exceeding 9 in number to the extent of the annual fixed income of the Fund from subscriptions, your donation, and interest on the fixed capital, under the condition of requiring retiring servants to make good *to the extent of a ¼ of the value of their annuities, receiving no refund of any excess in the amount of their subscriptions.*

† See Para. 4.

surplus funds, the subscribers (deprecating refunds) restricted their request * to the grant of *simple annuities at a more favorable rate than ½ value*—not below ¼, but as much below the ½ value as the surplus income would admit of. And the new Rules 35 and 36 of January 1842 exactly (as far as the *half* surplus goes) meet this wish. They provide for the reduction of the rate of *purchase payment* for the *simple* annuity to as low a limit as the available income will allow—though that has never come yet so low as ¼ value: and where the retiring subscriber has completed by subscription and interest the half value he obtains the simple annuity "without any payment" being required from him †. But both classes stand exactly on the same footing as regards the additional advantages of quarterly and deccase benefits, for which both, if they choose, have equally to pay. And you will remember that a special clause (page 9 of "Notification," dated 12th November, 1841,) allowing of refunds beyond the *half* value from which certain members might have met the additional value for quarterly benefits was negatived by the subscribers at large.

8th. But while the Managers believe from the circumstances above detailed that it would not be consistent with the wishes of the subscribers in general to meet the views expressed in your communication by trenching in any degree upon the sources set apart "for the improvement *of the rate* at which the annuities *accruing under Rules* 8 *and* 11 are granted" (Rule 35 and the Court's Dispatch of 1841), or in any way altering the Rules passed last year rendering those sources so available,—they are of opinion that the subscribers might legitimately ask the Hon'ble Court to apply part of the *other* half of the general surplus yearly income which the Court reserve to themselves to meet the case put by you. You will find that the Management have already referred this in the last paragraph of the letter to Mr. Robertson which with others bearing on the same subject have been sent home. The Managers would therefore suggest to you the propriety of waiting the result of that reference to the Hon'ble Court of Directors.

I have, &c.,

ANNUITIES OF 1846-47.

Circular Letter to qualified Members.

To———

Sir,

I am directed by the Managers of the Fund to enquire if you are desirous of accepting one of the *nine* annuities of 1846-7 to accrue on the 1st May next. These annuities will be available at half value premium respectively, as the maximum rate, under Rule 11; but that rate will be improved by whatever sum may be found available for distribution on the 30th April next from the income of the Half of Excess Balance, according to Rule 36. Under that Rule the annuities accruing from May 1842, have been assigned and appropriated; the ultimate share of bonus which became available in the respective years is noted in the margin.* It cannot at present be known what the share, which may become available for each annuity of next May, will amount to, but it will be approximately reckoned and be made known to applicants or their Agents before the 30th April next.

*In 1842-43 Co's. Rs. 10,071- 0-3
1843-44 — 15,741-11-0
1844-45 — 11,007-13-4

Applications for the annuities of 1846-7 will be received and registered up to 30th April 1846; but applications which shall have been registered on or before the 1st November next will have a prior right to those received after that date to the annuities in question. On the first of next May, the Managers will accord* the said nine annuities to the applicants in the order of their seniority, first, to those registered on or before 1st November 1845, and next if any remain over, to those applying after 1st November, but before 1st May 1846. Should any annuity still remain untaken after such reservation on the 1st May, it will thereafter be available to any qualified member on condition of his actual resignation of the service and payment of fine, but it shall not under any mere application or declaration be reservable to any member. Every application for an annuity must state the willingness, to accept and retire, in the manner prescribed by the rules.

There are eight annuities, of £1,000 each per annum, left untaken of May last and which continue open for appropriation to any qualified member who may resign and retire upon them. They are available at the same rate as the rest of the annuities granted on the 1st May last, namely, at half value with a bonus attached to each annuity of Rs. 6,585-10-8 which may be expected to be increased

* The annuity will commence from 1st May 1846, if fine have been paid on 30th April and resignation taken effect from 1st May; or between that date and 1st July; but resignation must not be deferred later than 1st July following the date of reservation of annuity—See Rule 15.

after appropriation of the remaining annuities and adjustment of the general accounts of the year.

I have the honor to be, Sir,

Your most obedient servant,

4. The proposition A. of the Managers' Circular of 12th October 1844, being put, namely :—

That the arrangement proposed for the settlement of the Accounts with the Fund of the surviving Members of the late Canton Service, as explained by the Managers in their Circular of 12th October 1844, paragraph 10, be approved.

Not carried, as Rule 22 requiries the "concurrent voices of at least nine Members *actually present* to carry any motion whatever."

Note.—Letters from the two surviving Members of the late China Service were laid on the Table, from Mr. F. J. Morris, declining the terms offered in the Circular, and from Mr. H. Alexander paying the amount of subscription required, but protesting against the delay in not making him earlier acquainted with the amount required and for receiving his current subscription since 1835, whilst a doubt existed as to the right of his family to the benefits of the Fund.

5. The proposition B. of the Circular of 12th October being put, namely :—

That the family of the late Mr. J. B. Thornhill (formerly of the Canton Service) be admitted to the benefits of the Fund on settlement of his Account as noticed in the Managers' Circular of 12th October 1844, paragraph 14.

Not carried under Rule 12 as above.

Mr. P. Melvill's printed letters, dated 27th December 1844, and 20th January 1845, on behalf of the widow of Mr. J. B. Thornhill protesting against and declining the terms proposed by the Managers for the admission of the family, were laid on the Table.

The Chairman read to the Meeting a letter (dated Bangalore, 17th January, instant,) received from Mr. John Peter Grant, who framed the Rule for the China Members, and who referring to Mr. Melvill's printed letter, affirms the application of Rule 37, to all the parties alluded to, and the consequent necessity of the payment by the Estate of Mr. Thornhill of the arrears or "entrance subscription" under the Rule, as stated in the Managers' Circular.

6. Proposed by Mr. Lowis seconded by Mr. Beadon,—That the effect of Rule XXXVII. being obviously prospective, and the China Servants having been admitted unconditionally into the Fund, they cannot now be subjected to any retrospective adjustment of accounts, and that therefore those gentlemen be now held as entitled to the full benefits of the Fund without being compelled to make good any payment to it beyond the full amount of their monthly subscriptions reckoned from the date of their entrance into the Service. And that the case of Mrs. Thornhill be dealt with on the same principle.

Thanks were voted to the Chairman, and the Meeting dissolved.

ABSENTEE RULES.

FORT WILLIAM, FINANCIAL DEPARTMENT, 17TH MAY, 1843.

The Hon'ble the President in Council, with the concurrence of the Right Hon'ble the Governor-General, has revised the Rules published on 29th January 1840, for the grant of leave of absence, and for regulating deductions from Salaries, and Deputation Allowances. The following Rules will have effect from this date for regulating Deputation Allowances, and the terms on which leave of absence will be given to places situated within the limits of the respective Presidencies, to which the Applicants are attached.

SEC I. No leave of absence from any office or station can be granted but by the Government of the Presidency, under which the employment is held, and on the application of the party requiring such leave, saving in such cases as may hereafter be specially excepted. The application must be made publicly through the regular channel in the department to which the applicant may belong.

NOTE.—*This rule must be considered as superseding the rule under which commissioners of land revenue and other officers have theretofore been allowed to grant leave of absence in Bengal.*

SEC. 2. The official allowances of the holder of a Civil Office quitting his station without leave will entirely cease from the date of his quitting until his return, or in the event of his subsequently obtaining leave to the date of such leave being granted him.

SEC. III. No leave of absence shall have any retrospective effect except in cases of severe illness, to be attested by Medical Certificate, conforming in every respect to the directions contained in Section 5th.

SEC. IV. Upon application duly made the Government of each Presidency may grant leave of absence to any place or places on the Continent of India whether within the Territories subject to the Government of the East India Company, or not, to any Civil or Military Servant holding a Civil appointment, subject to all the conditions prescribed in the rules that may be applicable to his case. Upon similar application the Government of each Presidency may also grant leave to such persons subject to like conditions, to proceed to the Island of St. Helena, the Colony of the Cape of Good Hope, or to any place situate between the 36th of North Latitude and the 50th Degree of South Latitude, such place being likewise between the 30th and the 180th Degrees of Longitude East of Greenwich, excepting however any Island in the Mediterranean or Levant, and excepting all places within the said Geographical limits which may form part of Europe. Provided also, that if at any time the Government of India shall deem it expedient to exclude any place or places within the limits above described from the operation of these rules, such exclusion shall be officially communicated to the subordinate governments, and all leave subsequently granted shall be regulated accordingly. A servant passing the limits herein prescribed will incur the immediate forfeiture of his office or employment, and of all official allowances whatever from the date of his quitting India.

CHAPTER II.—RULES FOR SICK LEAVE.

SEC. V. When an application for leave of absence is made on the ground of ill health it *must be accompanied by a certificate*, from the Medical Officer by whom the applicant has been attended, distinctly stating from his personal observation, the nature of the disease, the symptoms by which it is manifested, the period during which it has existed, as far as the knowledge of the Medical Officer extends, and the necessity for temporary removal to

some other place, either within the Territories subject to the Government of the East India Company or beyond them, but within the limits laid down in Sec. 4th, as the case may be, and such certificate must be submitted to the consideration of the Medical Board, and if satisfactory, shall be countersigned by one of its members. An application for an extension of leave must, if the applicant be in India, be accompanied by a certificate from the Medical Officer by whom the applicant is attended, shewing sufficient reason for the extension solicited, and such certificate, like the former, must be examined and countersigned by a member of the Medical Board. If the applicant shall have proceeded beyond the territories under the Government of the East India Company, he must furnish a certificate to the required effect from a Surgeon or Physician at the place of his temporary residence, by whom he has been attended, such attendance and the period of it to be stated, and the Certificate to be countersigned by the principal Medical Authority of the Colony or country. When any of the required particulars are neglected leave will be refused.

SEC. VI. (Amended.) Civil Servants absent from their Stations under Medical Certificate, within the limits of their respective Presidencies, shall be entitled to the Salaries of their Offices for the period of two years, subject to a deduction of $\frac{1}{3}$d for the whole term of such absence, save and except that for the first year, if the Salary be not more than 500 Rupees per mensem, no deduction shall be made, and if it be only so much more than 500 Rupees that the prescribed deduction of $\frac{1}{3}$d would reduce the allowance below that sum, only the excess beyond Rs. 500 shall be deducted, but for the second year, the full deduction shall be in force. An absent Servant, whether Civil or Military, shall in no case retain any Civil Office or employment, nor be permitted to draw any portion of official Salary for a longer period than two years, but a Civil Servant who may, on account of sickness duly certified, obtain an extension of leave beyond two years shall, if his period of actual residence be less than 12 years, be allowed to draw the second rate of subsistence allowance, and if the period of such actual residence be 12 years, the highest rate of subsistence allowance, but if he continue absent in disobedience of an order to return, or without sufficient cause shewn, that allowance also shall be forfeited. The period of absence shall be computed from the date of his quitting his Station to the date of his return thereto.

SEC. VII. Civil Servants absent on leave on account of sickness, duly certified, if they proceed to England without returning to their Presidency, may as heretofore, apply to be admitted to Furlough by the Honorable the Court of Directors, and the Furlough will in such cases take effect from the date of leaving their Presidency, consequently the allowances of Office that may have been drawn by themselves or by their Agents after their departure mustin that case be re-adjusted, and the difference refunded.

NOTE.—*This rule applies to all descriptions of leave on account of health, excepting those granted under Sec. XII*

Thus a second leave within the Presidency, no less than a second time to sea, will be computed as forming part of the period of two years, if taken before three years have elapsed since return from the first leave, and the deductions will be made upon computation of the accummulated period of absence, under all such leaves taken without the intervention of three years of consecutive service.

SEC. VIII. No second leave will be granted to any Civil or Military Servant holding a Civil Appointment who has been absent under the above rules for two years, until three years at the least shall have passed after the date of such servant's return, but if such a servant is compelled by sickness again to absent himself from his station within three years after having been absent under the above rule for less than two years, he will be allowed to complete that period, subject to the limitations and conditions heretofore prescribed, drawing the proportions of salary allowed for the remaining time as if the leave had been continuous.

Sec. IX. Military Officers employed in the Civil Department and drawing a Civil allowance may obtain leave under Medical Certificate on precisely the same conditions as Civil Servants, except as to allowances. Such officers in common with those holding Staff situations in the Military Department will draw the Military pay and allowances of their rank while absent on leave under Medical Certificate, in the form and manner prescribed in General Orders in the Military Department, and likewise one-half of the difference between such allowances and the Civil pay of the offices to which they stand appointed.

Sec. X. Civil or Military Servants holding Civil appointments who may desire to avail themselves of the benefit of the Act I. Vic. Cap. 47, and to draw their allowances while absent on account of sickness under the above rules, will be required to give security in such amount and form, as may be fixed by the Government for the refund of any excess that may be drawn, either by the Agents at the Presidency or by themselves, in case of their proceeding to Europe on Furlough or otherwise coming under retrenchment.

Sec. XI. (Amended). The Government of each Presidency may grant to Civil or Military Servants holding Civil appointments leave of absence for one month in each year without deduction from the salaries and emoluments drawn by such Servants. Such leave however will only be granted when the Government is satisfied that no inconvenience or expense will arise from the departure of the Officer seeking it. No second leave can be granted under this rule until the completion of eleven months from the expiration of the last leave.*

Sec. XII. (Amended.) The Government of each Presidency may, on sufficient cause being shewn, grant to a Civil or Military Officer holding a Civil Office special leave of absence on private affairs. Provided however that if any Officer to whom such leave shall be granted shall be absent from his Station for any period exceeding that to which under the last rule he may be entitled without deduction, the absentee if a Civil Servant shall for the period in excess draw no more than one-half of his Salary and Allowances, and if a Military Officer only so much of the Salary and Allowances of any Civil Office to which he may stand appointed as added to the Military Pay and Allowances which he may be entitled to draw, shall equal one-half of his entire Military and Civil emoluments. After an absence of three months (exclusive of any period which may be granted under Sec. XI.) any Office held by the Absentee shall become vacant.

* LETTER FROM THE FINANCIAL SECRETARY TO THE SECRETARY TO THE GOVERNMENT OF BENGAL, DATED 23RD AUGUST 1844.

Sir,—I am directed by the Gov. Genl. in Cl. to annex for the information of the Hon'ble the Deputy Gov. of Bengal, extract from a dispatch from the Honorable the Court of Directors No. 11, dated 3rd July 1844, and in accordance with the views of the Hon'ble Court, to authorize the Govt. of Bengal at its discretion, and provided it be attended with no inconvenience to the public service, to grant to such servants only as under the old rules, of January 1840, may have acquired a title to the indulgence by a continued residence of 22 or 23 months at their respective stations up to the date of the promulgation of the amended rules of May 1843, leave of absence free from deduction, for 2 or 3 months as the case may be, under sec. 11 of the rules prior to their amendment.

2nd. Reckoning from the date of the publication of the amended rules of May 1843, Sec. XI. will have full force in its amended shape, and the Honorable Court particularly enjoin that the one month of absence grantable under that section, shall be invariably attended with the conditions that it shall be without injury to the public business, and without expense to the Govt. In all other respects the amended rules of May 1843 continue unchanged.

CHAPTER III.—RULES FOR LEAVE PREPARATORY TO EMBARKATION AND FOR JOINING STATION.

SEC. XIII. is rescinded.

NOTE.—*This rule is only applicable to Civil Servants. Military Officers appointed to Civil Office will draw Salary only from the date of joining as heretofore; the rule in force in respect to Staff Situations being applicable to them.*

SEC. XIV. There shall be allowed to Officers appointed to any New Office the periods of one month, two months, or three months, for joining accordingly as the distance may not exceed 300 or 600 miles, or be in excess of the last mentioned distance. Officers not joining their stations within the said period respectively shall forfeit their Salary for the time delayed in excess of the above periods and if such excess shall exceed one month, the Office shall be vacated unless otherwise specially ordered by Government.

SEC. XV. Upon the first appointment of any Civil Servant who shall be reported qualified for the Public Service by the examiners appointed by the Government, to any Civil situation, there shall be allowed for travelling expenses to the station, an allowance at the rate of 8 annas per mile by the direct Post Road according to the Polymetrical Tables of the Post Office, the Bill for which allowance will be passed by the Civil Auditor after the Officer shall have joined the station : if required in advance, an Order of the Government shall be necessary.

SEC. XVI. The Salary of Office will be payable from the date only of the Officer joining, but in the case of Junior Civil Servants, the Salary of Assistant will be payable from the date of their being reported qualified for Public Service, unless forfeited under the preceding rule through delay in joining the station to which they may be appointed.

NOTE.—*This rule also is only applicable to Civil Servants. Military Servants drawing as in the case of Staff Situations no Civil Salary from the time of leaving one Office, till the date of joining the other.*

SEC. XVII. In case of a change of Office when an Officer is appointed to a higher situation, he shall not draw the higher Salary until he joins. For the period occupied in travelling the Rule No. XIV. regulating the time and distance for joining stations shall be applicable, and the officer will, for the periods allowed in that rule respectively, draw out of the Salary of the Office he is about to join, a sum equal to that of his previous situation.

FURLOUGHS BEFORE COMPLETION OF TEN YEARS' SERVICE.

Are granted under the authority of Para. 22—of the Court's despatch of 8th December 1824, viz. In cases of Civil Servants compelled by illness, certified upon oath, to come to Europe previous to their completion of an actual residence in the Civil Service of ten years, such Covenanted Servants shall each be presented with the sum of 2000 Sicca Rupees as passage money and shall be entitled, for a period not exceeding three years, to an allowance, from the Company's cash, of £250 per annum, but servants having received this indulgence shall not in the event of their again coming to Europe after having completed a residence of ten years or upwards, be entitled to any allowance under the first Regulation, except their return be again occasioned by illness, to be in like manner certified upon oath, and then only to the difference between what they have before drawn in the shape of passage money, and that of £500 per annum for three years.*

* The interpretation put upon the Regulation relating to the claim of servants who had been compelled by ill health to go to Europe before complet-

FURLOUGHS AFTER TEN YEARS' SERVICE

Are granted under Paras. 21, 23, 24, 25, of the despatch of the Hon'ble Court, dated 8th December, 1824.

That, after an actual residence in India, in the Civil Service, of ten years or upwards, a Covenanted Civil Servant of the Company, upon either of the establishments of Bengal, Madras, or Bombay, shall be entitled, whether on account of ill health, or from any other cause, and without reference to his private fortune, to come once to Europe on leave for three years, and to receive for that period, from the Company's cash, an allowance of £500 per annum, provided that in no case shall a greater number of servants come home under this regulation annually, than seventeen from Bengal, nine from Madras, and six from Bombay ; nor shall a larger number of servants, who may have come home under this regulation, be absent in the whole at one time, than fifty-one from Bengal, twenty-seven from Madras, and eighteen from Bombay ; and that the preference shall be given, first to servants producing medical certificates upon oath, that a visit to Europe is indispensably necessary for the restoration of health, and then to servants in their order of seniority, according to the rank assigned to them by the Court of Directors in the gradation list of the service.

23. The servants coming, in the first instance, to the Cape of Good Hope for the benefit of their health, and being compelled from the same cause to come from thence to Europe, without previously returning to India, shall be considered as entitled to the benefit of the foregoing regulations.

24. That in all cases, as well in those of servants coming in the first instance to the Cape, as well as of those coming direct from India, the said allowances be considered as commencing from the date of leaving India and terminating at the expiration of three years from that date, or at the time of arrival in India, whichever may first happen.

25. That the same be paid half-yearly in Europe, that on no account or plea whatsoever, the allowances in question be extended beyond the period of three years.

RULES FOR GRANTING FURLOUGHS—SEPT. 1828.

First. A furlough granted to a Civil Servant, whether under a sick certificate or otherwise, in conformity with the rules of the Honorable Court's despatch, dated 8th December 1824, shall be considered to have lapsed on the occurrence of any of the following events:

1st. On the death of the party in the course of 3 years from the date of his leaving the Presidency.

2d. On the retirement from the service by acceptance of an annuity granted under the rules of the Bengal Annuity Fund Institution.

3d. On return to India before the expiration of three years.

---

ing 10 years' service in India, to a furlough, after they should have served that period, had been considered doubtful. It has lately been ruled by the Home Government that in the event of such parties preferring an application for leave of absence on private affairs after completing the prescribed term of service, it will be within the discretion of the local Government to comply therewith, always having reference however to the wants of the public service. But it is only in cases in which parties may be compelled by ill health after 10 years service to go to England a second time, that they are entitled to any pecuniary allowance for such second absence, and then only to the difference between £500 per annum for three years, and the amount drawn during their first absence.

4th. On the expiration of three years from the date when the ship sailed in which the party proceeded to Europe.

Second. Civil Servants will be entitled to proceed to Europe on furlough on sick certificate at any time of the year, provided there shall not be at the period of their applying for the certificate, fifty-one individuals in the enjoyment of the furlough.

Third. On the 1st November and on every succeeding 1st November, the number of furloughs to be tendered to Civil Servants of ten years' standing and not claiming the indulgence on the ground of ill health, shall be calculated as follows:

Form of calculating available furloughs.

Complement of 51 furloughs as on the 1st November 1827.		
First year taken,	14, deficient	3
Second year,	9, ditto	8
Add available by furlough rules,		17
Total available on the 1st November 1827,		28
Deduct taken within the year up to this day, on Sick Certificate,	5	12
Without Certificate,	7	
Remain available for 1st November 1828,		16
Retired on pension,		2
Deaths,		2
Total available to meet present applications,		20

Fourth. If the applications received by Government before the 1st November of any year, should not equal in number, the available furloughs calculated as above, the same may be taken by servants either on sick certificate or otherwise at any time of the year following, until the number shall be complete. When it may be so, further certificates on account of lapsing furloughs shall not be granted, except on the applications being accompanied by sick certificates; the lapses in the course of the year being reserved to meet the demands of the service according to the principle laid down by the Honorable Court of Directors, that is, with due preference to cases of sickness and to seniority.

Adverting to the inconvenience likely to arise both to the Government and to the members of the Civil Service, from the withdrawing of applications for furlough after they have been granted, the Governor-General in Council has been pleased to determine, that henceforward, any Civil Servant who shall withdraw his application for furlough after the same has been granted shall be considered to have employed one year of the term allowed for that indulgence; unless the Government, on any case submitted to it, shall be satisfied that strong and sufficient reasons, which could not be foreseen when the application for furlough was made, have prevented its being carried into effect.

Individuals desirous of proceeding on furlough are hereby apprised that applications for furlough only are in the first instance to be addressed to the Secretary to Government in the General Department; and then an affirmative answer having been received, the usual forms with regard to relief from the charge of office, and certificates from the offices of account, which are prescribed in the case of Civil Servants returning to Europe, are to be observed in the department in which the party is officially employed.

The rules above referred to having been fulfilled, application is to be made to the Secretary to the Government in the General Department, for the certificate of permission to proceed on furlough prescribed in the first part of the 22nd paragraph of the printed despatch from the Honorable the Court

of Directors, dated the 8th of December 1824, and for the usual* licence to be received on board the ship in which the applicant may intend to proceed, specifying the name of the ship and time fixed for her departure from

---

LICENCE AND REPORT OF DEPARTURE REQUIRED.

* The same licence is required by Civil Employés from their own Governments when about to embark from Bombay, to be received on board the ship or steamer sailing thence, in which they may intend to embark.

Where Officers do not proceed from the port of Calcutta, they should report their departure from the last place within the limits of the Bengal and Agra Presidencies. Where they proceed from Calcutta, they must report from the Pilot's leaving the ship.

Besides this certificate, the Civil Servant returning to Europe, should receive, and bear in mind, the contents of the following :—

Subscriber, Bengal Civil Fund.

Rules 4, 32, 33, & 34.

SIR—Understanding that you contemplate proceeding to England soon, I have the honour to call your particular attention to the rules noted in the margin.

If it is not your intention to resign the service upon leaving this country, you will observe that you are required to continue your contributions to the fund out of any furlough allowance, to which you may be entitled ; and that in case of your being entitled to no such allowance you must continue to contribute as if you were, if you are desirous that any family you may leave at your death shall have an interest in the Civil Fund.

Upon either of the above suppositions, it will be necessary for you to take steps to have the monthly contributions due by you paid regularly in India. You can pay, in advance, the whole amount demandable from you during the three years for which furlough allowance is receivable or any part of that amount, if you prefer such an arrangement to making provision for monthly payments through an agent.

The ordinary deduction therefrom is ..... Rs.	120	0	0
The Extraordinary ditto or ¾ per cent is ,,	40	0	0

A memorandum is noted in the margin* of the amount of deductions assessable from subscribers who receive the full furlough allowance of £500 and of that assessable from those who receive only £250 a year, from this you will readily perceive the amount of the payments for which you are required to make provision.

The money must be paid to the Sub-Treasurer as Treasurer of this Fund, but you are requested, before sailing, to inform me of the arrangements you may make.

If it is your intention to resign the service on or before sailing, and if the sum of your subscriptions to this Fund, with interest, does not amount to Rs.

Bengal. Civil Servants proceeding on certificate of ill health will also furnish themselves with the Certificate from the Managers of the Civil Fund required by the despatch above quoted, and will transmit a duplicate of such certificate to the Secretary to the Government, in the General Department.

Civil Servants intending to retire from the Service or to leave the country upon furlough, shall give notice thereof to the Accountant of the Department to which they belong, at least three months before the date on which they propose to leave the country in order to allow that officer to ascertain and bring to adjustment, as far as possible, any items of account standing to their debit in the Public Books.

MODIFIED FURLOUGH RESOLUTION OF 1839.

Resolved on the 6th November, 1839, that the following rules be established for the grant of furloughs to members of the Civil Service in part modification of previous rules passed on the 6th October, 1825, and 18th September, 1828, and that the same be applied to the furloughs of the present year.

Rules for grant of furloughs. 1. Civil Servants desiring furlough must as heretofore submit their applications so as to reach the office of the Secretary to Government in the General Department at Calcutta, on or before the 1st November of each year, when the furloughs then available to complete the number 51, will be appropriated to the senior applicants who have completed 10 years of actual residence, provided they are subscribers to the Civil Annuity Fund, and have not forfeited their claim by a previous absence as juniors so as to bring their case within the orders contained in the 22d para. of the letter of the Hon'ble Court of Directors, dated 8th December, 1824.

2 The applicants on the 1st November shall further have the benefit of the furloughs that may lapse by return or expiry to the 31st March next following, but during this period applicants under medical certificates will be entitled to preference, and such applicants may as heretofore take their furlough, if any furloughs are available, at any period of the year.

Applying the above rules to the applications now before the Government, the following will be the order of admission to the benefit of furlough, in the present season.

The applicants entitled to furlough on the 1st November, ranged in the order of seniority, are 25.

Of these the two Seniors are admitted from this date,

Three others being applicants under medical certificate will be entitled to the first furloughs that may lapse from this date.

Two others whose periods of ten years' residence will be completed on the 7th of November of the present year, will also be entitled to avail themselves of any furloughs that may lapse after that date, their applications having been accompanied by medical certificates.

After furloughs shall have been allotted to the above applicants under medical certificate, and to any other similar applicants whose cases may be laid before the Governments of Bengal or of the N. W. Provinces, in the interval

---

25,000, you will observe that it will be necessary for you now to pay the Treasurer of the Fund, the amount by which the sum of your subscriptions with interest, falls short of the sum of Rs. 25,000, if you wish that any family you may leave at your death shall be entitled to benefit under the rules of the Civil Fund.

I have, &c.

Honorary Secretary.

between the 1st November, and the 31st March, the furloughs that may lapse until the date last mentioned shall be allotted as they fall in, to the above applicants in the order of their rank in the above list.

For their assurance as to the time when they may reasonably expect to obtain furloughs, the following list of the dates when the furloughs will respectively expire, if the 14 incumbents do not previously return, is published for general information.

The President in Council, considering that under the above rules a full allotment of furloughs will be made to the members of the Bengal Civil Service, and that the exigencies of the Public Service will not admit, without inconvenience, of a larger number of servants being absent than is provided for by the rules established, deems it expedient to require that leave to proceed to Europe, on account of private affairs, shall be sparingly granted to servants not entitled to the privilege of furlough, and that applications for such leave be not complied with, except under special circumstances to be explained to the satisfaction of the heads of the respective Governments of Bengal and the N. W. Provinces.

PUBLIC DEPARTMENT, No. 20 of 1840.

OUR GOVERNOR OF THE PRESIDENCY OF FORT WILLIAM IN BENGAL.

Para. 1. We have to acquaint you that we have adopted the following Regulations with respect to the grant of extensions of leave to Members of the Indian Civil Establishments repairing to this country under the Absentee Regulations or on special leave of absence, viz.

That Civil Servants coming to England under the Absentee Regulations or on special leave, shall immediately on their arrival, report themselves with their address, by letter to our Secretary, forwarding at the same time the Certificates which they received in India.

That in all cases of leave, Civil Servants be required to join the Establishment to which they belong at the expiration of the term, for which leave may have been granted unless they shall have obtained an extension of it from us six months before the expiration of the said leave.

That extension of leave will not in future be granted by us except in cases of sickness certified to our satisfaction, or in cases in which it shall be proved that a further residence in Europe is indispensably necessary.

That when under any such circumstances a Civil Servant shall have obtained an extension of leave to a given period, he must at the expiration thereof apply for and obtain our permission either to return to his duty or to reside a further time in Europe, failing in which he shall be laible to be struck off the List of Civil Servants.

That the act of the 33rd. Geo. 3d. cap 52, Sec. 70, as it respects Civil Servants applies only to cases of sickness, infirmity, or inevitable accident, and that no Civil Servant be hereafter considered eligible to return to the Service after five years absence under that Enactment who has failed to obtain from us agreeably to the foregoing Regulations, an extension of leave under the circumstances referred to in the Act.

2. We desire that the foregoing Regulations be published for general information and that each Civil Servant returning to this Country under the Absentee Regulations or on special leave be furnished with a copy for his guidance.

We are, &c.

London, 2d Sept, 1840.

MISCELLANEOUS CONNECTED WITH LEAVE, &c. REJOINING, &c.

Any Civil Officer who may be absent from his station without leave shall be considered to have forfeited the whole allowances of the Office to which he stands appointed for the period of his unauthorised absence unless the penalty be expressly remitted by Government; and any Officer exceeding his leave shall be held by the Civil Auditor to be absent without permission for the time of such excess.

Any Officer leaving the limits of his Jurisdiction, whether with or without the orders of Government, shall be bound to report the circumstance to the Civil Auditor.

Any Officer who may be removed from one station to another, shall in like manner report to the Civil Auditor the dates on which he may make over and receive charge; and the Civil Auditor is restricted from passing the Bill of any Officer appointed to a new Office for the Allowances belonging to such Office (without the special orders of the Government) until he shall have received report of his having taken charge thereof.

Leave of absence, when solicited for the purpose of visiting any place on the continent of India, shall not be granted for a longer period than 6 months, but which will of course be extended at the discretion of Government on due and sufficient cause being shown.

Any Officer desiring to visit the Presidency with the intention of making a voyage to sea for the benefit of his health or otherwise, shall be required distinctly to specify in his application the period of leave necessary for the first purpose, at the expiration of which, renewed leave shall be given for periods not exceeding one month, until he finally avails himself of the further permission to quit the Presidency, on which occasion the vessel in which he embarks must be duly reported.

Any Officer arriving at the Presidency whether from the interior of the country or from abroad, shall report his arrival to the Secretary to Government in the Department to which he belongs, as well as to the authority to which he may be immediately subject, if holding any Office subordinate to any other.

Any Officer returning to the Presidency after having made a sea voyage for the recovery of his health or otherwise, shall unless the contrary is specially sanctioned by Government, be required to rejoin his station within the time that may be prescribed for travelling to the station to which he stands appointed.
